Dear Lanny:

Here is the information you requested. The piece in the up coming show is, as of now, untitled. The installation in the photographs (negatives) I sent you, is named, "(dis)Array: Obstacles in an Internal Landscape." The following is the statement you requested; feel free to edit it:

My work act as pointers to psychological situations, and social inter- actions. They resonate the cultural questions of the moment in a playful and graphic manner. They can be read on a general level, in terms of culturally accepted connotations and, on a specific level, through the individual interpretation of a particular audience, My artmaking concerns are grounded in the bonding of a sound conceptual base with technically well-produced objects and events.

I hope this is acceptable. The mailing list is enclosed with this letter. See you in November.

Sincerely,
